Title	Author	Page No.
Calibration Estimators under Two Stage Sampling Design when Population Level Auxiliary Information was not available	Kaustav Aditya, Arpan Bhowmik, Ankur Biswas and Shrila Das	01-06
Privacy protection in estimating sensitive population proportion by hypergeometric randomized response model	Kajal Dihidar	07-18
Farmer's Income and its Influencing Factor using Standardized Regression Coefficients	Manoj Kumar, R. K. Sahni, V. BhushanBabu and H. S. Pandey	19-22
On a Procedure of Estimation of Data-Dispersion Matrix under Complex Spatial Structure Prevalent in Field Experiments	Satyabrata Pal and Kajal Dihidar	23-28
Food and nutritional status of Chakhesang and Pochury tribes of Phek district of Nagaland	Zhophonu Chuzho and Aatish Kumar Sahu	29-38
Allometric models for predicting above ground biomass of dominant shrub and tree species grown in semi-arid Bundelkhand region of India	Dibyendu Deb, Arunava Ghosh, J.P. Singh, Parthendu Poddar and R.S. Chaurasia	39-45
A statistical study on pineapple in north-eastern states of India for sustainable policy development	Krajairi Mog, Sh. Herojit Singh and Anurup Majumder	46-51
